

# Infernal Overdrive

White Wizzard

Corporate politicians  
Pig head kings and queens  
Taking you for a ride  
Illusion behind the scenes  
New world order rising  
Coming to eat your brain  
Whore us all to the machine  
We're all lost and insane

Straight to hell  
We all nosedive  
Shifting gears to  
Infernal overdrive

On and on  
As the beast grows more  
Brainwashed fools lost in nevermore  
Wake up see before too late or the  
Evil machine will own your fate

Thinking we have a choice  
Lost in constant lies  
Reality is all gone - and now here come the flies  
Mired in our shit  
Lost in computer screens  
Ignorant fools here it comes  
The evil war machine

Straight to hell  
We all nosedive

See them  
Illuminate the disguise  
Take your  
Soul right from under your eyes
