

# Metamorphosis

White Wizzard

My soul into hibernation  
Growing into new rebirth  
Manifest reincarnation  
To rise up from a sleeping earth

With wings of fire I am reborn  
My soul of light into the sky  
The snake charmer sings me higher  
Into new dimensions I fly

Arise the gods to bless my flight  
See me through on blue starlight  
Finding my way to new lands  
Power of the night in my hands

My time has come  
Deaths grip undone  
I am now one  
With stars and sun
