

Storm Chaser

White Wizzard

Chasing the eye of a hurricane
A storm rider running free
Light the flame running high octane
Blasting across the sea

Meteor showers in the skies
Fire red flashing in my eyes
Like a comet in the night

Lightning strike on saturday night
Storm chaser on an endless flight
Rocking hard into the city light

Blazing fire on a crazy train
Hot liquor rushin' through my brain
Fireball red blaze 'til I go insane

Tornado twisting power surge
Cloud bursts shake the ground
Rocketing high across the stars
Supersonic sound

Meteor showers in the skies
Fire red flashing in my eyes
Like a comet in the night

Lightning strike on saturday night
Storm chaser on an endless flight
Rocking hard into the city light

Blazing fire on a crazy train
Hot liquor rushin' through my brain
Fireball red blaze 'til I go insane

Storm rider riding high
Upon the blowing wind
Silver surfing the sky
Super hero never giving in

Lightning strike on saturday night
Storm chaser on an endless flight
Rocking hard into the city light

Blazing fire on a crazy train
Hot liquor rushin' through my brain
Fireball red blaze 'til I go insane

Lightning strike on saturday night
Storm chaser on an endless flight
Rocking hard into the city light

Blazing fire on a crazy train
Hot liquor rushin' through my brain
Fireball red blaze 'til I go insane
