

## Love to Keep You Warm

Whitesnake

If you want love,  
You gotta be cool  
And if you deny it,  
Then baby you're a fool  
I'm telling you now,  
Don't you hide it away  
Because you need to keep you warm both night and day

I could come home  
Late at night  
And after some loving,  
Baby, it would be alright  
I've given up trying  
Lying my way  
Because you need love to keep you warm both night and day,  
You gotta have love to keep you warm both night and day

I said baby, if you need my love  
You better come home with me  
Maybe if you want my love,  
You know you got it easily  
But, when the sun goes down  
And the night is cold,  
You know I won't be far away  
Because you need love to keep you warm both night and day,  
You gotta have love to keep you warm both night and day

You gotta have love

If you want schooling baby  
I'll be around,  
I'm ready for fooling  
But, don't hang around  
And every morning I know I will say  
Because you need love to keep you warm both night and day,  
You gotta have love to keep you warm both night and day

I said baby, if you need my love  
You better come home with me  
Maybe if you want my love,  
You know you got it easily  
But, when the sun goes down  
And the night is cold,  
You know I won't be far away  
Because you need love to keep you warm both night and day,  
You gotta have love to keep you warm both night and day,  
You gotta have love to keep you warm both night and day,  
I said you need love to keep you warm both night and day
