

One Shot

Whitney Duncan

I've had my heart broken
Love gone up in smoke
Been played like a bad joke
Oh, oh, yeah

Been burrrned by the fire
Met one too many liars
Got so sick and tired
Oh, oh, yeah

Swore I'd never let myself fall again
Oh, but I'm looking at you
You're looking at me
And here I go givin' in

Cause what you gonna do, what you gonna do
When it's staring you right in the face
Where you gonna go, where you gonna go
You can't run away
It's one shot, you get it right
One shot can last your whole life
You and me let's give it all we got
Come on give it one shot (one shot)
One shot (one shot)
One shot

I wanna know what your story is
Learn a little more in between each kiss
Make something that we can't forget
Oh, oh, yeah

Swore I'd never let love catch me again
Oh, but I'm looking at you
You're looking at me
And here I go jumpin' in

Cause what you gonna do, what you gonna do
When it's staring you right in the face
Where you gonna go, where you gonna go
You can't run away
It's one shot, you get it right
One shot can last your whole life
You and me let's give it all we got
Come on give it one shot (one shot)
One shot (one shot)
One shot

Yeah yeah yeah yeah yeah
This just might be forever
Yeah yeah yeah yeah yeah

Lean in for another kiss
Make a little something we can't forget

Cause what you gonna do, what you gonna do
When it's staring you right in the face
Where you gonna go, where you gonna go

You can't run away
It's one shot, you get it right
One shot can last your whole life
You and me let's give it all we got
Come on give it one shot
Baby give it one shot
Come on give it one shot

Come on give it one shot (one shot)
One shot (one shot)
