

Day & Night

Whitney

Always getting closer to the great divide
Wheels spinning through the city
Chasing the state line

Now and then I remember there's an end in sight
When it hits me, feels good but strange at the same time

Day and Night
Day and Night
How long? How long?

I'm here again, where the road turns
And I don't know why
I've been drifting, feeling dizzy chasing the same high

Day and Night
Day and Night
How long? How long? 1
