

Friend Of Mine

Whitney

Turn around now and
Then you'll see that your world's gonna leave you behind

You've been sleepwalking
And it seems like you're further away every time

You say
You're still a friend of mine
While you're drifting away
Like a cloud hanging over the pines

Such a cold morning
It was clear, you were trying to open your eyes

You just keep falling
Through the years, getting further away every time

You say
You're still a friend of mine
While you're drifting away
Like a cloud hanging over the pines
