

In the Saddle

Whitney

Mesmerized
Got twenty years to burn and half a mind
To hit the road
I hope nobody knows

I'm riding high in the saddle
Don't know where, but I'm rolling
Stoned in the moonlight
I'm still yearning to find

A touch of gold
There's nothing in the sky but chemicals
I can't pretend
Luck is blowing in the wind

So I'm back in the saddle
Don't know where, but I'm rolling
Stoned in the moonlight
I'm still yearning to find

I'm riding high in the saddle
Don't know where, but I'm rolling
Alone in the moonlight
I'm still yearning to find
