

LOST CONTROL

Whitney

No it ain't gonna make any difference
And I can't run away from myself
Now that you're gone
How can I believe in someone else?

No it ain't gonna change any minute
Honey, love only turns to regret
Now that you're gone
And wonder if it's really for the best

Don't you know?
I gave you my heart and you let me go
Some grow old
We made it this far, but we lost control

No it ain't gonna make any difference
Every moment was given away
You're moving on
And I can't even make it through the day

Don't you know?
I gave you my heart and you let it go
Some grow old
We made it this far, but we lost control

Don't you know?
I gave you my heart and you let it go
Some grow old
We made it this far, but we lost control
