

Small Talk

Whitney

Many fighters past their prime
Can't let it go
Can't let it die
Tragic figures mesmerize
Lord only knows why

Every morning, every night
The devastating weight of life
No stranger to the pain, I'll take it off your mind

TV stations, microphones
The feelings you hide to put on a show
Generations watched you rise
Like a deer in the headlights

Every morning, every night
The devastating weight of life
No stranger to the pain, I'll take it off your mind

Every morning, every night
The devastating weight of life
No stranger to the pain, I'll take it off your mind
