

You've Got A Woman

Whitney

Working on this dream with you, oh baby (baby, baby, baby)
Wanna spend my life with you, oh baby (baby, baby, baby)
Working on this dream with you, oh baby (baby, baby, baby)
Wanna spend my life with you, oh baby (baby, baby, baby)

I can see the stars all shining
You and me could be
Happy like the bees together

You've got a woman
You've got a woman

Woman, woman, woman
(Always on my mind)
Woman, woman, woman
(Always on my mind)

I can see feel so free with you, oh baby (baby, baby, baby)
Love you more and more each day, oh baby (baby, baby, baby)

You just have to hold on me
Trust in me, I'll set you free
Come along and follow me, oh baby

You've got a woman
You've got a woman

You just gotta to hold on me
Trust in me, I'll set you free
Come along and follow me, oh baby

You've got a woman
You've got a woman

Woman, woman, woman
(Always on my mind)
Woman, woman, woman
(Always on my mind)

Woman, woman, woman
(Always on my mind)
Woman, woman, woman
(Always on my mind)
