

## Sway

WHY?

Desert, middle of winter  
My feet, they know America  
My cheek, frozen window  
My eyes eat up a handful  
Gaining and then I'm leaving  
Just as it starts to happen  
Sometimes I feel the distance  
But then I remember being kids

And swinging in the light of the disco ball  
Shut my eyes, I'm still swinging in the light of the disco ball

Old part is all melting  
My friend shows me everything  
We run around inside our high school  
The hoop in my stomach gets dunked  
Over and over, think of my boys  
They're in class stirring up another continent  
Right now I feel the missing  
But then I remember being held

And swinging in the light of the disco ball  
Swinging in the light of the disco ball  
(Time to go)  
Back there now, I'm swinging the light of the disco ball  
I'm still swinging in the light of the disco ball  
Back there now, I'm swinging in the light of the disco ball  
(Time to go)

Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now, be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now, would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now  
Thought I'd be forever in the light that way  
Thought I would be swaying now
