

## Ari's Back

Wicca Phase Springs Eternal

Last September throwin' up my lean  
Now I keep a tank around me  
Find me in the Honda, baby beam  
Drivin' while your hands are on me  
Triple on the corner, babe, freeze  
Now I think my name is Frieza  
Its your body, ya you gave it to me  
Don't ask me why I'm so conceited  
'Cause you were like, "Oh bae, don't let me go"  
But its never for me to give it up though  
You were like oh can you bring it slow  
And I was like, "Ya bae, I'm always cold"

I'm a stunner, bae...

Diamonds in my hand like the Gucci Mane  
I'm the psychic pilot of the gundam man  
And I'm out the 'rari, Ari's back  
Call me 7, Goldie's back  
Stunner cold, really bad  
Frieza baby, blowin' stacks  
I think I'm Frieza like I'm sure I'm bad  
Buy a gundam and I paint it black  
And I always suffer and I never act  
And it's GTA and I'm blowin' stacks

And you were like, "Oh bae, don't let me go... "
