

Dark Region Road

Wicca Phase Springs Eternal

Center myself because tonight
I'm going deep within a lake to await the portal's open
Once through I will wait and take you by the end
I've found a love and love washed over me an ocean

It's better than gold
When I turn the key
The windows are down...
The wind's blowing loud
I'm wild, I'm free
It's still that times stands
When I drove alone
The moonlight, the sand
Under my command...
On dark region road

Past where the road bends on Winola back to Ransom
I do ride and take in all that's open
Every sound and sign is there for me alone
The moon is high and high ran over me
Devotion

It's better than gold
Her mouthing my name
The mountains I'd climb...
Both dark and divine
To watch her again
I hope that her hand's
The one that I hold...
When I come to find
The mysteries of time...
When I'm at the door

It's better than gold
When I turn the key
The windows are down...
The wind's blowing loud
I'm wild, I'm free
It's still that times stands
When I drove alone
The moonlight, the sand
Under my command...
On dark region road
