Wicca Phase Springs Eternal

I need ya
I need ya
I need ya
I need ya
I need ya
Yeah baby I need ya

Drinks on me when you're on fire
Nothing that will go away
You bring it all the time so I got something for ya
A time a place I'm free if you're staying
It's in my sign I'm into you
Everything you love yeah I'm gonna do
And I can't wait around to see you nude
I lose control wonder if you ever know
It's in my head a better way
I used to be afraid now I'm never late
I show you off the girl I'm proud to claim
I lose control wonder if you ever know
(Me, me, me, me, me)
It's on me when you're on fire
When you're on fire
Drinks on me when you're on fire
It's in my mind when you're on fire
When you're on fire on me when you're on fire
(Me, me, me, me)
It's in my sign I'm into you
Everything you love yeah I'm gonna do
And I can't wait to come around to see you nude
I lose control wonder if you ever know
It's in my head a better way
I used to be afraid now I'm never late
I show you off the girl I'm proud to claim
I lose control wonder if you ever know
I lose control wonder if you ever know
When you're on fire
Me, when you're on fire
I lose control wonder if you ever know
When you're on fire...
