

House At The River's Bend

Wicca Phase Springs Eternal

It's not looking good for us

I don't tell you with a diamond ring
Baby you know what I came back building
I don't want to say this again and again
It's all bout da way that you miss my love like no other
All da hoez been up on me since I came back wit some money
I still won't go there won't go there no more
Baby don't go there don't go there no more
Acting like you wildish when you childish I know
Tell me how you like it bet I got it fasho
Babe please don't go there don't go there no more
I still won't go there won't go there no more

I'm watching how you move
And operate on a level
That I see through in the dead of night
And the weighing on me is heavy
Is it true
That part of me has mistaken
What I once saw as carefree
Is actually careless

I am desperate to know
What actually knowing is
Uncertain of everything except for my uncertainty
There's pain
A pain that's ever present
I'm here for it to end
God you know I'm ready

I am here on the outside
If I called would you come again
I won't fall and I'll move forward
I'm in a house at the river's bend
I felt life in a month's time
I'm in a house by the eagles nest
I felt pain but not anymore
I gave all for the summer's end

I am here on the outside
If I called would you come again
I won't fall and I'll move forward
I'm in a house at the river's bend
I felt life in a month's time
I'm in a house by the eagles nest
I felt pain but not anymore
I gave all for the summer's end

Acting like you wildish when you childish I know
Tell me how you like it bet I got it fasho (I'm watching how you move)
Babe please don't go there don't go there no more
I still won't go there won't go there no more (I'm watching how you move)

In one mile, turn left on Garden Avenue
Misery
