

# I Wake Up In Pain

Wicca Phase Springs Eternal

In a serious way to start the day  
I wake up in unknowing  
I wonder what haunts this house  
Woe is me  
Depression in passionate phrase  
The tiger in me is untamed  
So hate me but don't go away  
I wake up in pain  
The connection is tenuous at best  
And weighing on my chest  
The best times have all come and gone  
Tell me where I have gone wrong  
Go back to a past life  
I had you up all night  
You like me right  
Help me turn my systems on  
Go back to a past life  
And heal me with your light  
In the way that I hold on to a feeling too long  
I hold on to you and in song  
I feel you growing tighter  
I wonder if you're all but gone  
I love you but I notice something wrong  
The past is not only a place  
I give you your time and your space  
So you can have all to my name  
I wake up in pain

There's times when I'm cold and I'm afraid  
There's times when I can't stay  
Help me back from where I've gone  
Tell me where I have gone wrong  
Go back to a past life  
I had you up all night  
You like me right  
Help me turn my systems on  
Go back to a past life  
And heal me with your light
