

Ice Is Me

Wicca Phase Springs Eternal

I never seem my own way
Touch me in silence baby
Put me in places
I'm the one
But I've nothing left to say
It's not like you need to follow
The feeling's silent
Touch yr legs
It's what you take and all...
Lead me down the path right...
Let me be the only one...
Find me in the back right...

Ice is me
Control on me
Eyes on me...

I could tear you down but its too easy
I could make you mine but I'm too busy
Oh
Creeping out looking like bob
Front line assembly when we mob
I feel like I might need to make a change
Because changing you has turned into my job
Ice is me
Lost control alt - delete
All last week
Offered me
Awfully
To this altar on the sea
Come for me
Hey baby you got me ripping my heart out
Ripping my heart through my chest
On real afternoons
And you already know the rest
Real love can not be defined
Though it is not odourless
Imma go to bed alone
And when I come around
Bout to hit you with the breath
Got to hold it in
