

I'll Return To The Land

Wicca Phase Springs Eternal

I'll return to the land
Recognize what I am
And I'll gain from the dread I'm losing
With the past in my hand
I'll abandon command
And resign as the sea tides move me
Where the shadows began
I'll return as a lamb
Sympathize with the beasts I'm grooming
With passionate partner sharing my name
I rode through the canyon of conflict and flame...

On a pastoral drive
With the sun in my eyes
I reflect on the time unfolding
And the spell I divine
Of desire and time
Manifests in the love I'm holding
With a wife at my side
And this space undefined
Realize what I have here's golden
In thought and embrace don't lose me
One path through the trees lies open

The ride to what I'm after took days
Three nights later I'm at the camp
Pastures settled beyond the map
Rider with no past to explain
The ground before me reflects
Sunset's layered with pain

Carry on down the road
Of illusion and code
And I'm tied to my love completely
And the tie that I've sewn
Is eternal and glows
In the eyes of the one I let see me
So reveal the unknown
Signify that it's shown
And concede to the pattern repeating
Through moors of malaise I'm moving
Awareness of all increasing

I'll return to the land
Recognize what I am
And I'll gain from the dread I'm losing
With the past in my hand
I'll abandon command
And resign as the sea tides move me
Where the shadows began
I'll return as a lamb
Sympathize with the beasts I'm grooming
With passionate partner sharing my name
I rode through the canyon of conflict and flame...
