

I'm Lebron

Wicca Phase Springs Eternal

New jersey, GDP man, I'm fuckin' with him
I'm in Miami, the Heat are sick, but I'm done with 'em
I got 11's, the anthracite ones, I'm blackin' out
Cold stunner, tripled up, I'm in motion now
I can back up my ego, so let me keep shootin'
Baby's back on my tourin', it's like I keep movin'
In the back with my clique, it's like the dark goes through me
Put me back in positions when like you never me

It will be enough, I'm like it'll be enough
Talk about me's what I want, I can't help but be a stunner
Your limbs never stop, it's hard but I don't love
I think my number's six, I always triple up

And it's all a game, I think that I'm 2 Chainz
I'm Corinthiaxxx, baby, call me by two names
And I try not to miss you, but it's like too pain
And the vision is perfect like nothin' too change
I think I'm Laura Palmer, I think I'm Lebron James
I think I'm here with Audrey, I think I'm Lebron James
I think it's what I want, I think I'm Lebron James
