

## Lake Of Fire

### Wicca Phase Springs Eternal

What were you thinkin' last night, all night?  
You were in and still like outside  
You were once in pageants, I know  
You were in the club lights, I know

You were in the past tense, so slowed  
I was right there with you though  
Feelin's came like heavy then  
I want tongue and nothin' else  
I want you like bad  
Come to me in violent ways and can't even react  
Actin' selfish in the back  
Takin' selfies in all black  
So, you were under club lights, so cool  
I was right there with you too

I saw you without pretense years ago  
You were in the club like so cold

Cry for me, die for me, I know you will

With your legs on my hands  
It's cool, I'm a fan  
I thought about leavin' once and never again  
I thought I was passionate, like I'm passionate, man  
In shadows, I stand  
In shadows, I'm next to you  
What's your number and plans  
In visions I come to you when you're out with you're friends  
Or out without friends  
And I call, but the cell is off and I miss you, again  
I'm tied to your hands  
I'm tethered to everything

What were you thinkin' last night, all night?  
You were in and still like outside  
You were once in pageants, I know  
You were in the club lights, I know
