

Like Ice

Wicca Phase Springs Eternal

(I'm sorry...)

You used to call me back
Now I handle stacks
Find me at my place and well party
In the palm of my hand
Count it, rubberband
Do you remember when the comin' started?
And its all for you now...
Eyes look steady through the rain for you now...
I said, "It's like ice, I'm givin' to you
I said, "It's like ice, man..."

I say move your hand away...
Let me call you once, no struggle...
I know I'm conceited
But if I'm only breathin' once I'm breathin' for you...
Everything became the water, see water...
I said, "It's like ice man..."
Callin' out praise to the witchy daughter, see water
I said, "Tt's like ice I'm givin' to ya"
I said, "Tt's like ice man... "
