

One Diamond

Wicca Phase Springs Eternal

(Go beyond the common plane)
(Never be our love the same)

Find a fascination and amazed by what's not there
Magic permeating through the cracks of the known world
Any more than mundane and the plain I will not share
I want to engage
To have and to hold
Celebrating seems that I perceive and you can't see
There's only one diamond that I seek in the whole world
Love in five dimensions you and me
Can you take me away
Now and forevermore?

Watch over me
I saw the hemlock to the East in evergreen
Follow the path back to the shadow that commands
Forbidden fragments of the past I hold in hand
I noticed moments in the past that never leave
I love a song and I remember any line
I run the range without a plan

Asked you to follow me into the dark
Pay no mind or consequence
Not enticed by looking back
Forward as the shoulder bends
Go beyond the common plane
Never be our love the same
