

Symbol Devotion

Wicca Phase Springs Eternal

I've been on the inside
Of panic and strife
I don't wanna find myself right back
Change the balance of time
Observing all signs
Ambiguity embraced to the max
With my partner at side
Ambition runs high
Proving loyalty and love in a pact
I will tether and tie
To a moment in time
I'll be calling out to make it last

Carry you down a road of black
I can take more than you might think
The symbol of devotion on my hand
Pushing against the violent wind

Hello mystery, I've come to meet the bumps in the road
I put pain inside a prison, it attacks me again
How can I fall asleep at night
Knowing there's always something else
Shrouding my soul in agony
Finding its way right back to me
(Misery)

I've been on the inside
Of panic and strife
There's a portal that I know of in the back
And it's recklessly wrought
Over mountains and heights
And we find that we've got behind the map
When it surfaced, stared their eyes
When the timing is right
In a way what I wanted was to cross that line
Out in the middle that consumes my past
Back to the meadow where the moonlight shines

I've been on the inside
Of panic and strife
I don't wanna find myself right back
Change the balance of time
Observing all signs
Ambiguity embraced to the max
With my partner at side
Ambition runs high
Proving loyalty and love in a pact
I will tether and tie
To a moment in time
I'll be calling out to make it last

Carry you down a road of black
I can take more than you might think
The symbol of devotion on my hand
Pushing against the violent wind

(Carry you down a road of black)

(I can take more than you might think)
(The symbol of devotion on my hand)
(Pushing against the violent wind)
