

Cosmic Confidante

Widespread Panic

'Member Kool Aid days
Thought they'd never end
Playing in the backyard
'Maginary friends
Laughin' at nothing
Make up the games we want

The dog face clouds
Gradually appear
I miss my old friend
All smiles and ears
Come here, stay, fetch your magic wand
Long distance cosmic confidante

Simple pleasures, simple times
I'll go your way, you go mine
I'll meet you at the crack in
The edge of time

Sidewalk home
In a Firefly show
Airplanes and planets above us
Little town lights below
Step on a crack
Break your nonchalance

Forty worn down steps
Grandleather chair
Old notes and photographs
A whisper in the air
Gentle nudge from the great beyond
Long distance cosmic confidante

Simple pleasure, simple smile
I'll go your way, you go mine
I'll meet you at the crack in
The edge of time
