

## Flicker

### Widespread Panic

Rise, rise, rise, fly above your head  
Cups are running over, voices out of breath  
Time, time, time, and time's have come again  
Part another red-eye sea, talking it to death

Just because you mean it  
Doesn't mean we've seen it

Call, call, call me through the night  
When we finally answer, will they get it right  
Oh, run, run, child, run it up the pole  
Hard to say you hate 'em, just doing what they're told

Just because you feel it  
Doesn't mean it's real

Now it's clear, the air in here  
Is dragging down the shine as it grows thicker  
Others say magic's gone away  
Look closer maybe you might see the flicker

Talk, talk, talk, wagging of your tongue  
Wishing it was over, doesn't make it done  
Cry, baby, cry, now smash up all your chair  
Just because we're laughing doesn't mean that we don't care

Just because you feel it  
Doesn't mean we feel it

Just because you feel it  
Doesn't mean we feel it

Now it's clear, the air in here  
Is dragging down the shine as it grows thicker  
Others say magic's gone away  
Look closer maybe you will see the flicker

Olden days had their way  
Shine escapes, the shadows moving quicker  
Now it's clear, the air in here  
Shining in the lights, a thousand flickers

Bye, bye, bye, thought you lost a friend  
Maybe found the love you seek, leaving in the end
