## **Bad Rain**

Widowmaker

Look into my eyes You won't see them telling lies See the trouble see the trials that surround me Strain shows on my face Its one thing time can't erase Another catches, another chase Hell has found me Oh god knows that I've tried Oh I'm filled with the lies Of dreams that have died.

It's like a bad rain Bad rain It's like a bad rain Bad rain Like a bad, bad rain Coming down on me.

Why do I carry on? Now that all my hope is gone To the limit and beyond What am I proving? Yet I have no choice Like some disembodied voice Ain't got nothing to rejoice My life's in ruin Oh the end's in my sight Oh don't matter who's right I'm losing the fight.

If you could see the things I've seen Do what I've done, be where I've been Then you could feel the pain I feel I won't give in, I will never yield So let it flow Let if flow.

Look into my face These battle scars state my case I've run an uphill race I'm not defeated.

Just try and knock me down I'm a king without a crown Out of way, I'm taking ground I won't be beaten.

I'm like a bad rain...

I'm like a bad bad rain Coming down on you.
