

All Yours

Widowspeak

I stopped looking for you
I stopped looking for you
In the places I won't go to

Cause they're all yours
They're all yours
They're all yours
And I was once all yours
They're all yours
They're all yours
They're all yours
And I was once all yours
Too
Too
Too
Too

There was something else on your mind
There was someone else on your mind
And fell behind

They're all yours
They're all yours
They're all yours
And I was once all yours
They're all yours
They're all yours
They're all yours
And I was once all yours
Too
Too
Too
Too
