

Borrowed World

Widowspeak

I'm in it up to my eyeballs
That's always got a place to play
If you told me when I was younger
Never would've signed my name
I owe a lot of people something
And I'm living on borrowed time
I know that I should pay attention
But I never paid any mind. Do you
You know that I'm always worried
That I can never pay my debt
Always feel like I'm running
And they haven't caught me yet
But I don't know where I'm going
Someone's always right behind
I know that I should pay attention
But I never paid any mind

I never paid any mind, I'd rather give up all my time to you
Living in a borrowed world with you
Living in a borrowed world with you

And I'm in it up to my eyeballs
That's always got a place to play
If you told me when I was younger
Never would've signed my name
And I don't know where I'm going
Someone's always right behind
I know that I should pay attention
But I never paid any mind

I never paid any mind, I'd rather give up all my time to you
Living in a borrowed world with you
Living in a borrowed world with you
Living in a borrowed world with you
Living in a borrowed world

(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
(Do do do do) Living in a borrowed world
Living in a borrowed world
