

Cosmically Aligned

Widowspeak

I knew a girl
She might say she don't know me anymore
She used to say we were never Cosmically Aligned
We were never Cosmically Aligned
I had it right
Maybe I just don't want it anymore
Me and that life we were never Cosmically Aligned
We were never Cosmically Aligned

All that I've love you they always wanted to know
All that I've love you as a bus overload

I knew you then
Maybe I just don't know you anymore
I never said we were never Cosmically Aligned
We were never Cosmically Aligned

All that I've love you they always wanted to know
All that I've love you as a bus overload

All that I've love you they always wanted to know
All that I've love you as a bus overload

All that I've love you they always wanted to know
All that I've love you as a bus overload

Overload
I knew a girl
She might say she don't know me anymore
She used to say we were never Cosmically Aligned
We were never
We were never
We were never
We were never
Cosmically Aligned
