

## Sore Eyes

Widowspeak

It's a lie we're dreaming of  
That sky, like spilling blood  
And at the base I'm so tired  
Staring straight into the fire

You're a sight for sore eyes  
Let me rest my sore eyes  
The night is long  
The light is gone  
Let me rest my sore eyes

We walk a misty ground  
The city is a ghost town  
And we're up to stay tired  
Walking straight into the fire

You're a sight for sore eyes  
Let me rest my sore eyes  
The night is long  
The light is gone  
Let me rest my sore eyes

Ashes to ashes to ashes  
Ashes to ashes to ashes  
And I stood fast

You're a sight for sore eyes  
Let me rest my sore eyes  
The night is long  
The light is gone  
Let me rest my sore eyes
