Widowspeak

When I was with you I was  
When I was with you I was  
So sure you were something new and I felt stoned

Like in mid-air when you fall  
Like it wasn't real at all  
Caught in the moment I was wasting  
And I felt stoned, stoned, stoned, stoned

And it felt like velvet  
And it felt like home  
And I've gone in search of it  
'Cause I wanna feel like I am... stoned, stoned, stoned, stoned

And there's nothing  
And there's nothing like being... stoned  
You've got me fading (stoned)  
You've got me fading (stoned)  
And I've been waiting 'till I was (stoned)  
You've got me fading (stoned)  
You've got me fading (stoned)  
And I've been waiting (stoned)  
'Till I was...
