When I Tried

Widowspeak

Same as I was then
I'm biting my hands again
And trying to waste my own time
When it's wasted it feels like it's mine

Tried to do some work today
Tried to go all the way
And got there meaning to talk
But then I had nothing to say

I was more alive when I tried
I was more alive when I tried
I was more alive when I tried
But you can't try all the time

Took a day trip out of town
I used to think you brought me down
But the company is giving me life
Saturday I got this alright

But Sunday, the sun still sets in
What does it have to do with this skin
It's not a cut or a scrape you can kiss
Why am I still like this?

I was more alive when I tried
I was more alive when I tried
I was more alive when I tried
But you can't try all the time

But you can't try all the time
But you can't try all the time
But you can't try all the time
But you can't try all the time
