

Is life still overflowing?  
They say that we should live it up  
I'm sure you've chosen wisely  
Bring it to your lips and drink from the cup

What's the point in asking  
For anyone to take their time?  
They have the right to wander  
I'm left with my peace of mind

Don't take it slow  
When you know, you know  
Don't take it slow  
When you know, you know  
When you know, you know

I could save all my money  
I could spend it all  
Pay to climb a mountain  
And fall

Don't take it slow  
When you know, you know  
Don't take it slow  
When you know, you know  
When you know, you know  
When you know, you know
