Okay, I came up out a bitch
But my mom ain't raise no bitch
I lay juggin' with my brother
Ride around in tinted whips
Okay, these boys think I am reckless
What they talking, what they knowin', all that fiction
I come through and "sup" they bitches
Oh my goodness, Jesus pieces
Angels blessed me
Walked through hell like "Lord forgive me"
I was stuck up on the bottom of the pit
Now in hell is where I sit
Six spit up out my poison hold my voice up for me bitch
I was stuck up from the bottom of the pit
Right in hell is where I sit
Six spit up out my poison
Hold my voice up for me bitch
And take this dick slowly shorty, all my kids
Tell my pops that he a bitch
Can't fuck with opps, I'm too legit
Smoking haters in my backwood
I'm just ashing how they living
This designer cost a grip
Gold grills shinning in this bitch
Yet they hate me when I'm flexing
Born to lose but built to win
Back then they said I wasn't piss
Now they claim that I'm the shit
Now I feel like I'm that nigga
Check my stats, I'm in this bitch

For all you fuck ass niggas that ain't even know
Rich Life, Members Only in this bitch
From 816 all the way to Broward nigga
People really wanna talk about their shit
Fuck that, I know that I am making more guap
I'm making guap, can't nobody tell me shit
I'm on my shit...
