

# What You Made Me

wifisfuneral

Look at what you made me  
Got me poppin' percs and poppin' seals, I'm brazy  
It's been a long, long, long time since I felt anything  
I lost my dog, I lost my girl, now I feel numb  
The only thing I think about is pourin' up

Got two besties [?]  
And she wound up on the scene, lil shawty controllin' me  
'Til the bitch move like it's scary  
I run them bands so steady  
Put a bad lil bitch in Margiela  
But a ho know I ain't no Daenary  
Cut that fascist, still that backseat  
Know I ain't sippin' no dairy  
Poppin' on two boys, now I'm fallin'  
Left my head in outer space  
Like, this what I'm tryna say  
Kickin' shit, people I'm tryna play  
Remember them hard days  
They don't seem long away

Act like I took too many of them chances  
Just to live all in them mansions  
Wanna whip out, no racks then  
Said she feel like dancin'  
Ay, tell my lil nigga like, "Oh no"  
All my dogs is cutthroat  
My life isn't normal  
Lookin' for a mansion

Look at what you made me  
Got me poppin' percs and poppin' seals, I'm brazy  
It's been a long, long, long time since I felt anything  
I lost my dog, I lost my girl, now I feel numb  
The only thing I think about is pouring up

Sippin' on two line, who I?  
I might not give a fuck  
In the club, probably hate me, right now, oh well  
Need that I'm stuck  
Can't look down my light, no Farscape  
Give you all my soul for a bar to take  
I had to teach you a lesson then cut you right off 'cause you doin' the extr  
as  
I remember I was wearin' them Nike Air Force's but now I step out in Giusepp  
e's  
I remember when them bitches told me that I wouldn't be shit, now I fucked o  
ne already  
Slip on my dick like spaghetti  
You know that I'm playin' it petty  
Don't know the opps name when it's mentioned  
We get 'em back when it's pressure  
Shut the fuck up 'cause we not with the tellin'

Act like I took too many of them chances  
Just to live all in them mansions  
Wanna whip out, no racks then

Said she feel like dancin'  
Ay, tell my lil nigga like, "Oh no"
