

Bleeding Daylight

Wig Wam

Sometimes you've got to scrape and scratch your way out of the hole

Dig harder, rip the guts out, gain control

Confront your demons
So you can crush them

Come closer, you'll see the shadows on my mind are fading
Look closer, you'll find the winter nights are gone
Like a phoenix within, I will fight, I will win
Kick at the darkness

Through tough times you've gotta armour up and get a loaded gun
No prisoners, kill the bad vibes one by one

Destroy the dark side
Where all the ghouls hide

Come closer, you'll see the shadows on my mind are fading
Look closer, you'll find the winter nights are gone
Like a phoenix within, I will fight, I will win
Kick at the darkness till it's bleeding daylight
Bleeding daylight

The hardest part you'll have to face
Can take you to a brighter place
The hardest words you'll have to say
Are the ones to yourself today

Kick in, kick out!

Come closer, you'll see the shadows on my mind are fading
Look closer, you'll find the winter nights are gone
Come closer, you'll see the shadows on my mind are fading
Look closer, you'll find the winter nights are gone
Kick at the darkness till it's bleeding daylight
