

Chasing Rainbows

Wig Wam

One chance, one break
One feelin' we can't shake
I can't stand you're wasting your time
Love-bombs blowing my mind

A broken dream is raging
Gotta change the tune
Come and face the real thing
Just step into the ring

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free

One prize to pay
Still, bound another day?
Go fast and burn
'Til you reach the point of no return

The feeling's getting stronger
It leaves you mesmerized
Please step right into my world
Prepare to roll the dice

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free

Always chasing rainbows
When your heart longs
To be free
