

# Forevermore

Wig Wam

Take me back to the land of north  
To the gods of thunder  
Take me back to the land of fjords  
Safe from stormy weather

Greed is strong, it leads you on  
In your search for glory  
You look for sparks in the dark  
Like a never ending story

When the battle's at your door  
We paint ourselves for war  
We make our stand together  
Forevermore  
When the devil rings the bell  
We fight and give 'em hell  
We're all in this together  
Forevermore

Oh oh oh, oh oh  
We're all in this together  
Forevermore

Take me back to another time  
My pagan heart's awaken  
Evolution's past its prime  
Existence is forsaken

Greed is strong, it leads you on  
In your search for glory  
You look for sparks in the dark  
Like a never ending story

When the battle's at your door  
We paint ourselves for war  
We make our stand together  
Forevermore  
When the devil rings the bell  
We fight and give 'em hell  
We're all in this together  
Forevermore

Oh oh oh, oh oh  
We're all in this together  
Forevermore

We paint ourselves for war
