

Hypnotized

Wig Wam

(Oh-oh-oh-oh)

Oohh

Caught in a dream I thought to be real
Somewhere in between heaven and hell

Like some kind of voodoo, so evil and cruel
She was pulling me through to the other end

Losing control of my body and soul
My head's just about to explode

From the first glance into her eyes
Hypnotized, hypnotized
Lucifer in descuipe
Hypnotized, hypnotized
By your mean love

Like a thief in the night
She was stealing my pride
Carving me up inside
Like a slaughter whore

Dressed in leather and lace
Her whips left the trace
Of the pain that I faced
When I begged her for more

Waking up blurry just to realize
The scares in the mirror don't lie

From the first glance into her eyes
Hypnotized, hypnotized
Lucifer in descuipe
Hypnotized, hypnotized
By your mean love

Aaaaawwww yeah

Oohh

From the first glance into her eyes
I'm hypnotized
Oohh Lucifer in descuipe
Hypnotized

Aawww
From the first glance into her eyes
I'm hypnotized, hypnotized
Lucifer in descuipe
Hypnotized, hypnotized
By your mean love

From the first glance into her eyes
I'm hypnotized, hypnotized
Lucifer in descuipe

Hypnotized, hypnotized
By your mean love
