

## Silver Lining

Wig Wam

To watch a dream just fade away  
To watch a dream come true  
There's moments in life that leaves you paralyzed, oh

There's no easy way to turn back to start  
There's no easy way to break through  
Wonders to be made, and always a price to be paid

No matter how bad, no matter how sad  
There ain't no cloud without a silver lining  
No matter how bad, no matter how sad  
There ain't no cloud without a silver lining

You wanted to make your mark  
But you kept firing shots in the dark  
You want to go home  
But behold, you're never alone

No matter how bad, no matter how sad  
There ain't no cloud without a silver lining  
No matter how bad, no matter how sad  
There ain't no cloud without a silver lining

No matter how bad, no matter how sad  
There ain't no cloud without a silver lining  
No matter how bad, no matter how sad  
There ain't no cloud without a silver lining

Oh, no matter how bad, no matter how sad  
There ain't no cloud without a silver lining  
No matter how bad, no matter how sad  
There ain't no cloud without a silver lining

No matter how bad, no matter how sad  
There ain't no cloud without a silver lining  
No matter how bad, no matter how sad  
There ain't no cloud without a silver lining
