

Wild One

Wig Wam

I'm back on track
Been hiding in the shades of black
Messed up inside
Had to run but my hands were tied

Get over it, get over it
I'll face it all tonight
Get on with it, get on with it
No fear for those who try

Tie my rebel down
I'm heading for the wild one
Turn my head around
I'm going for a homerun

Looks good from outside
Scratch the surface, and your hands will fry
You'll do or die
Keep together just to stay alive

Get over it, get over it
This time it all looks grande
Get on with it, get on with it
Like shit that hits the fan

Tie my rebel down
I'm heading for the wild one
I wanna do it again
Turn my head around
I'm going for a homerun
Long gone, long gone

Tie my rebel down,
I'm heading for the wild one
Come on and do me again
Turn my head around
I'm going for a homerun

Now I don't wanna waste it
All this time in vain
Everything we made together
Is gonna kill this pain

Tie my rebel down
Oh yeah

Tie my rebel down
I'm heading for the wild one
I wanna do it again
Turn my head around
I'm going for a homerun
Long gone, long gone

Tie my rebel down,
I'm heading for the wild one
Come on and do me again
Turn my head around

I'm going for a homerun

Come on

Tie my rebel down
I'm heading for the wild one
Turn my head around
I'm going for a homerun

Come on and do me

Come on and do me
