'Bout a hundred cats disappointed in me, in me  
Two hundred more cats just enjoying the scene, me doing me  
Half of the kids with the lyrics they always repeat  
That shit get old  
Other half wanna see me on them boilin' beats  
You don't even know  
Man, cause the next thing I know I got shorties to please  
At least with the flows  
I'm not tryin' to say that y'all ain't important to me  
Just letting you know  
I do what the fuck I want yeah I'm just gonna just do Unfortunately  
I'm finna go, I'm finna go, I'm finna blow

"How you gon' live with yourself?"  
How you gon' live with yourself?  
I'm tryin' to do it myself and live in good health  
Y'all think that proving your wealth  
Based what it say on your belt  
Y'all got another thing coming  
Y'all keep on running and running, your day will be dealt  
Cats they be onions, they know that they stink  
But yeah, the layering helps  
So rock all your outfits  
Y'all be outed man, stop playing yourself  
Before you get played on the stage  
Played in the cypher [?]  
Stay on the shelf, stay on the shelf  
You playing to win, you playing yourself  
You over there coachin', your players need help

Seems like those cats are done talking  
Seems like, seems like those cats are done talking

It seems like, seems like them cats done talking  
Get my team right, my dreams right while I'm walking  
So it seems like don't wanna leave life without offering  
How I see life in the meantime  
Worry 'bout myself, gotta get my green right  
I lean right, then I lean left to relieve stress  
I need cess so hit my weed man, gave me the green light

I think too much 'bout what the peeps like, they ain't me right  
I sit back and light the weed light  
Cherry on the leaf like

And the cherry blazes and hazes  
And the cherry blazes and hazes  
And the cherry blazes and hazes  
And the cherry blazes  
You are closer to me than my T-shirt and yeah, It's really intense
