

I need much

Wiki

Yeah
I need much

Why you call yourself wik
When you don't know about shit?
Man who be callin you this?
The whole fuckin city ain't tryna be blamin Aron
Better gimme that name that stick, stuck
I was in the city
I was just a young buck
So every fuckin kid talkin shit on the internet gonna get cut
Nah but he gonna get stung
I'ma say somethin right now that you wanna best trust

As long as my guys all good got a little boo, lotta brew, and a blunt I don'
t give a fuck
That's about it
I don't need much
I just said all four things that I need right above
And that's about it
I don't need much
(I don't need much, that's about it)
As long as my guys all good got a little boo, lotta brew, and a blunt I don'
t give a fuck
And I need to get a nut
Shit there's only just five things that I really want
That's about it
That's about it
That's about it
I don't need much

I don't need much
I don't need much
To make this beat yo I ain't need much
And just last week yo I ain't eat much
So this week I'ma need, I'ma need bucks

I start out my day
Start when I say
What's in my head
Pardon the pain in my voice
My heart is in ache
Hop out of bed
Look like I dropped a grenade
My room is a mess
Sip on the brew that was left
Hit up my left hand man
He's on the way
He was just hoppin the train
He got away
He got the he got the weight
So all my homies is straight
Motherfucker what you bring to the place?
Show me support and I show you support
Roll me a blunt and I'll roll you one more
Gimme a bite and I'll feed you for four
Gimme a hit and it's lit

If you my squad then you know who you are
Singin a song
Singin along
I don't need much
I don't need much
I don't need much

As long as my guys all good got a little boo, lotta brew, and a blunt I don'
t give a fuck
That's about it

That's about it
I don't need much

Thought of everything I need
All of these essential things
Came up with some peace and quiet
And a favorite strand of weed
Ladies and a bangin beat
And the bands that pay the fees
And some piece of mind so day to day won't have its way with me
I could do with space to breathe
And a patient mind would be
More than helpful welcoming the times the apple isn't sweet
But I got no patience when these cravings get the best of me
When the bright seems dark and distant I need light telepathy
Got a heart that holds a spark that most clairvoyants couldn't see
All I really need's a team and focus like a laser beam
And to keep on shinin like a diamond for your eyes to see
Teddy

I don't need much
I don't need much
I don't need much
