

Never Fall Off

Wiki

Uh

Alright, tryna put you on shorty right here, you feel me?

Uh

Tryna wife her

White Nike her

Not the white knight type

More the prince turned a frog

I like shorty 'cause what turns her on, other girls, it turns 'em off

She gets me, my disposition

She likes to listen

Slightly pretentious, but she gets it when she heard my songs

She bop along

Points out a line I said, we talking on

I took a joint to the head 'cause she don't spark a lot

She took vodka on the rocks, I took a little tea

She pushing into me

I said, "You want a little bit of me?"

She took it literally

Then she gripped my knee

Eyes locked for what seemed like weeks, someone took the key (Uh)

Tried to stop it, didn't want to get smitten, please

Don't wanna get my heart torn apart piece by piece

But Cupid's aim right and my game tight (Uh)

We made love the same night

Stayed up, stared in each other's eyes 'til the day light

Then we cuddled, made like

Little kids, end of the day, summer crashed out

Woke up, smashed out

Went to breakfast with plenty to laugh 'bout

Back to her house, you see how it played out

Wait, then shit got serious, this is what came out

Uh

Shorty, you

Nah, nah, I gotta say this right

Look

Shorty, you

I think you the one for me

I got booted by like three

But I grew and I can see

What you doing, girl, you doing it for me

If I could just get through to you, you would see

Shorty, you (Uh)

I think you the one for me (Uh-huh)

I got booted by like three

But I grew and I can see

What you doing, girl, you doing it for me

If I could just get through to you, you would see

Shit went quiet for a sec

For a sec, I regretted what I was trying to confess

She was lying on her chest

Eyes looking up at me

Abruptly, she touched me

Asked me if what I said, I meant

I said, "Yes"
She said, "What you said, it touched me and it's lovely"
Then she took a breath
Said, "But I'm a lot, don't know if you wanna cuff me"
I said, "Shorty, that's the one thing that I want, trust me"
You kidding me? I'd be lucky
We can make it public or could keep it cutty
Just tell me what you want from me

Shorty, you
I think you the one for me
I got booted by like three
But I grew and I can see
What you doing, girl, you doing it for me
If I could just get through to you, you would see
Shorty, you
I think you the one for me
I got booted by like three
But I grew and I can see
What you doing, girl, you doing it for me
If I could just get through to you, you would see
Shorty, you
I think you the one for me
I got booted by like three
But I grew and I can see
What you doing, girl, you doing it for me
If I could just get through to you, you would see
