If you talk about it, be about it
(If there's something in your way)
I'ma show you how to see around it
(If you're going through a phase)
I'ma help you keep you grounded
(Starting today)
What we say not to play around with

Okay
I gave it my all, my youth, my health, I gave it to y'all
And I don't got one regret, not at all
Whatever I got left in me I'm saving for y'all
And I'm not done yet, gotta top what I did before
[?] big faded and gone
Kobe and Bias up top playin ball
Y'all don't know me, take bias with grain of the salt
Whether you pray to God, pray to Allah
Or you pray to whoever or don't pray at all
Who am I to say who you are
Shit, you ain't saying who I am
Nah, you ain't made it in my plans
See, I got playmakers
My mans don't need vyvanse to stay patient it's my stance
Y'all don't know the type of shit that I'm on
I meditate at the interstate, I'm gone
Before that had the dinner date with my mom
When I'm home, your son gon' be an icon
That's what I thought, but then I lost
Then I was found and I bossed up and tore it down
I'm touring now, soaring over foreign ground
I thought it was a drought, the water pouring now
When they give me my flowers they'll buy the florists out

What we say not to play around with

If you talk about it, be about it
And when I walk around you see I'm 'bout it
Even if I'm sad as shit
Talk about it, you don't gotta read about it
Shit, that's what the challenge is
Salvaging everything that I have within
It's been a minute, I've been battling - in my own mind
Gotta put those thoughts back in the file cabinet and grind
While the whole pile of style unraveling

In front of your eyes, I finally feel alive
Flow's raw like a mandolin
Rhythmic but melodic
Tell me, do you feel the vibe?
Giving up ain't an option, gotta get it on and poppin'
I know you got this
Don't doubt it but hold you accountable for all that talking
What are you offering with all that barking
Enough gossip, start embarking on a mission
You see he saw a vision
And then he honored what he saw within him
