

MOONLANDERS

Wilbur Soot

Lose your mind, let it all go
So alive, no control
And it's all we ever needed in the end
Lose your mind, let it all go
So alive, no control
And it's all we ever needed in the end

And we're running, running, running, running
It's all coming, coming, coming, coming into life
And we're running, running, running, running
It's all coming, coming, coming, coming into life

The pressure is rising
The pressure is rising
Let it burn down
Let it burn down
