

Annihilation

Wilco

Hey
We're fallen angels
I wish we never learned to fly
Let's kiss before
Kiss before
We die

Life
It's nothing but shadows
I looked for you, far and wide
Let's kiss before
Just before
Goodbye

A kiss like this
Is endless tonight
This kind of annihilation
Is alright

Oh
What a crazy spirit
Feathers fight
Joyless light
Let's kiss before
We lift into the sky

Hey
We're boiling angels
Let's kiss for hours
Equal power
Let's make it art
This kiss is ours

A kiss like this
Is endless tonight
This kind of annihilation
Is alright

A kiss like this
Is endless tonight
This kind of annihilation
Is alright

Alright
