

# Cry All Day

Wilco

I know that I'm on no end  
I'm never totally right  
I'm gonna walk away slowly  
Instead I bid you good night  
Another goodbye  
I'm gonna cry

Cry, cry, cry  
Cry all day

Whatever you're withholding  
I never said it was good  
If I could sell it by the dozen  
I'd never doubt that you would  
I know that you would  
Where did you go?

Cry, cry, cry  
Cry all day  
Cry all night

I had a hole in my heart  
I had accompanied me  
It kept me holding from rolling  
Someone in the something like me  
Something like me  
You don't wanna be

I cry, cry, cry  
Cry all day  
I cry all night  
I cry all day

And I cry, cry, cry  
Cry all day  
Cry all night  
At the open mic  
I sing and starve  
I fall in a knife

However there's another  
Another future to fight  
I never took it so seriously  
Oh, you're serious? Alright  
Watch 'em all fight  
You can't fight it

And I cry  
Cry all day  
Cry all night  
Cry all day  
Cry all night  
All day

Another houser calling  
I see the world that fine  
I'm sick of your affliction

But you're just as smart as you're blind  
How would you like?  
Now be kind

Cry, cry, cry  
Cry all day  
All night  
Into the light  
Into the light  
Into the light
