

## Levee

Wilco

I love the levee by the lake  
But the levee is fake  
Why worry about the rain and the wind  
When I know it comes from within?

Save me  
Save me again  
Make me  
Make me lose you and then  
Save me  
Save me again  
Make me  
Make me use you again

I love to take my meds  
Like my doctor said  
But I worry  
If I shouldn't instead

Let you save me  
Save me again  
Make me  
Make me use you and then  
I'll save you  
I'll save you again  
You'll make me  
Make me useful and then

You can save me  
Save me again  
Make me  
Make me lose you again  
Save me  
I'll save you again  
Make me  
Make me use you and then

I can see you thinking  
I hear your thoughts  
And I love you without thinking  
I, I should not
